

CAPABILITY STATEMENT

BODY TELEMETRY & PROTECTIVE DEVICES LLC

Our Goal

To be your personal protection wingman by:

- Providing brand agnostic high tech communications gear
- Meeting/exceeding customer needs by bringing new capabilities to market
- Service-Disabled Veteran Owned Small Business
- Bringing high tech gear to you worldwide, especially gear new to market
- Tier 1 or Tier 2 supplier by working with other companies
- Engaging in government contracts
- We ship worldwide via ecommerce and government contracts

Company Mission Statement

- BTPD's mission is to increase the personal safety and survivability of people operating in high-risk areas. We accomplish this through smart devices, expanded communication means, and protective gear and clothing that reduce the notification time from injury. BTPD supplies products that saves lives and reduce injuries.

Performance

- Owner: 28-year USAF Lt Col has government experience as a military fighter pilot and liaison to the Army, and since retirement, as commercial airline Captain for a major airline. Ron capped his career with a staff assignment to US Central Command's J5 Plans division for over 5 years. He holds a Bachelor of Science from the Air Force Academy and Masters of Aeronautical Engineering from Embry-Riddle Aeronautical University.

Featured Products

- Emergency notification devices for military, Law Enforcement, and any person in a dangerous environment, the Personal Emergency Transmitter (PET) and Automatic Injury Detection (AID) panel for bullet resistant vest wearers
- GunEye's Weapon Mounted Camera (WMC) records video/audio for incident analysis and training, while also capable of a live link to a tablet or cell phone
- Ear Phone Connection products are lighter, more flexible, and cost effective earpieces, mic switches, and microphones for land mobile radios at a lower cost than some manufacturers
- More products are being explored to find the best solutions to your protection needs.
